

I believe in net neutrality...the internet needs to be OPEN. Texas Senators Cruz and Cornyn are wrong and are pawns of big business. Open Internet is extremely important to me. No one wants an internet provider to be so powerful that they can block websites, slow them down, slow ME down, give some sites advantages over others, or split the internet into fast lanes for companies that pay and slow lanes for the rest of us. DO NOT allow Republicans and corporate America to control our lives. The internet is access to knowledge and a bridge between cultures and people. On July 12, 2017 we are showing the FCC and the Trump administration how we CAN fight for our own futures.
